Abstract

Forest Products Trade Flow Data, 1998-1999 contains data on world flows of forest products, in volume and value terms, by origin and destination (25 largest importers, 15 largest exporters, for each product) in 1998 and 1999. They have been derived from the UN COMTRADE database, verified and supplemented by a procedure developed by the FAO Forestry Department.

Résumé

Statistiques des Courants Commerciaux des Produits Forestiers, 1998-1999 contient des données sur les courants commerciaux des produits forestiers, en valeur et en volume, par origine et destination (les 25 plus grands importateurs et les 15 plus grands exportateurs, pour chaque produit), en 1998 et 1999. Ces données sont tirées de la base de données de l'ONU COMTRADE, vérifiées et élargies par une procédure développée par le Département des Forêts de la FAO.

EXPLANATORY NOTES

INTRODUCTION

In view of the difficulty in collecting timely and consistent forest products trade flow data directly from countries using questionnaires, it was decided to use data collected by the United Nations Statistical Office. These data are available in computer readable form in the COMTRADE database.

The data on forest products trade flows were extracted from the UN COMTRADE database and the trade flow tables have been prepared by the **Forestry Planning and Statistics Branch of the Forestry Department** at FAO headquarters in Rome. The tables were constructed with computer programmes developed over several years by FAO. In addition to providing tables for the Timber Bulletin (ECE/TIM/BULL series), these data contribute to the production of the FAO *Yearbook of Forest Products*, providing an alternative source of data on total imports and exports for countries as well as helping to construct the *Yearbook* direction of trade tables.

Kindly note that the previous issue (Timber Bulletin 52/5) was not published.

ORGANIZATION OF TABLES

The included tables consist of total value of all forest products and tables for aggregates of roundwood, sawnwood, wood-based panels, pulp and paper and paperboard (excluding newsprint). Detailed tables for individual products follow the aggregate tables. The heading of each table indicates the HS (96) division and group codes for the data included in that table. For each product, eight tables are provided covering volume and value for imports and exports for the years 1998 and 1999.

DATA AND METHODOLOGY

The tables in this document were constructed from COMTRADE data available at the end of 2000. Import tables include data primarily reported by importers, while export tables include data primarily reported by exporters. Information from trading partners was used to estimate data that were missing due to non reporting (data that depend on trading partner information are marked with an asterisk).

Missing quantity data (or quantity data that are inconsistent with value data) are replaced with data constructed from value and average unit price.

In presenting the data for this publication, the largest 15 exporters (columns) and the largest 25 importers (rows) were included in each table. The importing countries are listed in order of magnitude of their total imports as reported in the import table, while the exporting countries are listed in order of magnitude of their total exports as reported in the export table. All other traders were included either with "Developed NES" (Not Elsewhere Specified) or "Developing NES". Each table represents the data on total world trade available at the date of table construction.

DEFINITIONS

The tables were constructed to match individual codes of HS (96). Note that pulpwood, sawlogs + veneer logs and other roundwood were not separated in this revision. For non-coniferous roundwood and non-coniferous sawnwood, tables of trade originating in tropical countries and trade originating in non-tropical countries were presented in addition to total world trade of those products.

NOTES EXPLICATIVES

INTRODUCTION

Devant les difficultés rencontrées à collecter de manière ponctuelle des données homogènes sur les flux commerciaux des produits forestiers à l'aide de questionnaires, il a été décidé d'utiliser les données collectées par l'Office Statistique des Nations Unies. Ces chiffres, accessibles par ordinateur, sont stockés dans la base de données COMTRADE.

La Sous-division de la planification et des statistiques forestières du Département des Forêts au siège de la FAO à Rome a extrait les données relatives aux flux commerciaux des produits forestiers de la base de données de l'ONU COMTRADE et a préparé les tableaux des flux commerciaux. Ces tableaux ont été conçus à l'aide de logiciels développés sur plusieurs années à la FAO. Outre leur insertion dans le Bulletin du Bois (séries ECE/TIM/BULL), ces chiffres apparaîtront dans *l'Annuaire des Produits Forestiers* de la FAO, constituant ainsi pour les pays une autre source d'information sur les importations et les exportations totales, et également une aide pour produire les tableaux des flux commerciaux publiés dans *l'Annuaire*.

Veuillez noter que le numéro précédent (Bulletin du Bois 52/5) n'a pas été publié.

ORGANISATION DES TABLEAUX

Dans les tableaux de ce Bulletin, on trouve la valeur totale de tous les produits forestiers ainsi que les agrégations pour les bois ronds, les sciages, les panneaux dérivés du bois, les pâtes et les papiers et cartons (à l'exclusion du papier journal). Des tableaux détaillés pour chaque produit suivent les tableaux d'agrégation. Le titre de chaque tableau donne les codes des divisions et groupes de la SH (96) relatifs aux produits qui figurent dans ce tableau. Pour chaque produit, on publie huit tableaux comportant les quantités et les valeurs des importations et des exportations pour les années 1998 et 1999.

DONNEES ET METHODOLOGIE

On a constitué les tableaux publiés dans ce Bulletin à l'aide des chiffres du COMTRADE disponibles fin 2000. Les tableaux des importations indiquent des chiffres initialement fournis par les importateurs, tandis que les tableaux des exportations montrent ceux fournis par les exportateurs. On a utilisé des informations provenant des partenaires commerciaux pour estimer les données non disponibles. (Ces chiffres dérivés des partenaires commerciaux sont marqués d'un astérisque).

Quand les chiffres de quantité n'étaient pas disponibles (ou lorsqu'il y avait incohérence entre quantité et valeur), on a fait des estimations à partir des valeurs et des prix unitaires moyens.

Dans chaque tableau, apparaissent les 15 plus importants exportateurs (colonnes) et les 25 plus importants importateurs (lignes). Les pays importateurs figurent par ordre d'importance de leurs importations totales, comme indiquées dans le tableau des importations, tandis que les exportateurs sont classés par ordre de grandeur de leurs exportations. Tous les autres pays sont inclus sous les rubriques "Developed NES" (Pays développés, Non Désignés Ailleurs) ou "Developing NES" (Pays en développement, Non Désignés Ailleurs). Chaque tableau fournit les chiffres du commerce mondial disponibles au moment où il a été rempli.

DEFINITIONS

On a complété les tableaux sur la base des codes spécifiques de la SH (96). Le lecteur est prié de noter que le bois de trituration, les grumes pour sciages et les grumes pour placages ainsi que les autres bois ronds ne sont pas identifiés séparément dans cette révision. Pour les bois ronds feuillus et les sciages feuillus, les tableaux du commerce en provenance des pays tropicaux et tempérés sont publiés en plus des tableaux concernant le commerce total.

SOME FACTS ABOUT THE TIMBER COMMITTEE

The Timber Committee is a principal subsidiary body of the ECE (UN Economic Commission for Europe), based in Geneva. It constitutes a forum for cooperation and consultation between member countries on forestry, forest industry and forest product matters. All countries of Europe; the former USSR; United States of America, Canada and Israel are members of the ECE and participate in its work.

The ECE Timber Committee shall, within the context of sustainable development, provide member countries with the information and services needed for policy- and decision-making regarding their forest and forest industry sector ("the sector"), including the trade and use of forest products and, when appropriate, formulate recommendations addressed to member Governments and interested organizations. To this end, it shall:

1. With the active participation of member countries, undertake short-, medium- and long-term analyses of developments in, and having an impact on, the sector, including those offering possibilities for the facilitation of international trade and for enhancing the protection of the environment;

2. In support of these analyses, collect, store and disseminate statistics relating to the sector, and carry out activities to improve their quality and comparability;

3. Provide the framework for cooperation e.g. by organizing seminars, workshops and *ad hoc* meetings and setting up time-limited *ad hoc* groups, for the exchange of economic, environmental and technical information between governments and other institutions of member countries that is needed for the development and implementation of policies leading to the sustainable development of the sector and to the protection of the environment in their respective countries;

4. Carry out tasks identified by the UN/ECE or the Timber Committee as being of priority, including the facilitation of subregional cooperation and activities in support of the economies in transition of central and eastern Europe and of the countries of the region that are developing from an economic point of view;

5. It should also keep under review its structure and priorities and cooperate with other international and intergovernmental organizations active in the sector, and in particular with the FAO (Food and Agriculture Organization of the United Nations) and its European Forestry Commission and with the ILO (International Labour Organisation), in order to ensure complementarity and to avoid duplication, thereby optimizing the use of resources.

CE QU'IL FAUT SAVOIR SUR LE COMITE DU BOIS

Le Comité du bois de la CEE est l'un des principaux organes subsidiaires de la Commission économique pour l'Europe des Nations Unies. Etabli à Genève, il est un organe de coopération entre les pays membres dans le domaine de la foresterie, des industries forestières et des produits forestiers. Tous les pays d'Europe, l'ancienne URSS, le Canada, les Etats Unis et Israël sont membres de la CEE et participent à ses travaux.

Dans le contexte d'un développement durable, le Comité du bois de la CEE fournit aux pays membres les informations et services dont ils ont besoin pour leurs orientations et leurs décisions dans le domaine de la foresterie et du secteur de l'industrie forestière, notamment le commerce et l'utilisation des produits forestiers ("le secteur") et, s'il y a lieu, formule des recommandations à l'intention des gouvernements des pays membres et des organisations intéressées. A cette fin, le Comité :

1. Avec la participation active des pays membres, procède à des analyses à court, moyen et long terme des tendances du secteur et des tendances qui l'influencent, y compris celles qui permettent de faciliter le commerce international et d'améliorer la protection de l'environnement;

2. Recueille et diffuse des statistiques sur le secteur à l'appui de ces analyses, et oeuvre en vue d'améliorer leur qualité et leur comparabilité;

3. Sert de cadre à la coopération, par exemple en organisant des séminaires, des ateliers et des réunions spéciales et en constituant des groupes spéciaux de durée limitée, pour l'échange d'informations économiques, écologiques et techniques entre gouvernements et autres organismes des pays membres, informations nécessaires à l'élaboration et à l'application de leurs politiques visant au développement durable du secteur et à la protection de l'environnement;

4. Mène des activités considérées comme prioritaires par la Commission ou le Comité, notamment la facilitation de la coopération sous-régionale et des activités propres à venir en aide aux économies en transition d'Europe centrale et d'Europe orientale et aux pays de la région qui se développent du point de vue économique;

5. Passe constamment en revue sa structure et ses priorités et coopère avec d'autres organisations internationales et intergouvernementales oeuvrant dans ce secteur et en particulier la FAO (Organisation des Nations Unies pour l'alimentation et l'agriculture) et sa Commission européenne des forêts et l'OIT (Organisation Internationale du Travail) afin d'assurer la complémentarité des tâches et d'éviter tout chevauchement des activités, de manière à optimiser l'emploi des ressources.
